Kilit

MOUSE TRAP

Thank you for choosing Kilit. Here is how to set and place your wooden traps, and how to activate your lifetime guarantee.

IN YOUR BOX

5 wooden traps (10.5 × 4.5 cm)

1 user guide

HOW DOES IT WORK?

1. **It is lured.** The mouse smells the bait on the trigger.
2. **It triggers.** At the slightest touch, the copper spring snaps.
3. **It is caught.** The catch is instant, with no poison.

SET UP IN 4 STEPS

1. **Wear gloves.** Mice avoid objects that smell of humans.
2. **Put a pea-sized bait** on the trigger: peanut butter, chocolate or cheese.
3. **Set it**: pull the bar back, hold it with the rod under the small hook, then let go gently. Keep your fingers out of the bar's path.
4. **Place the trap against a wall**, trigger side to the wall: mice run along walls. Pick spots with droppings or gnaw marks.

> Set several traps 1 to 2 m apart: a mouse rarely strays far from its nest.

CHECKING AND CARE

EVERY MORNING

Check the traps. A trap that went off without a catch: add bait and set it again.

AFTER A CATCH

Wearing gloves, lift the bar over a bag, close the bag and throw it away.

CLEANING

Wash the trap with soapy water, let it dry, then use it again.

PRECAUTIONS

- The spring is strong: set and release the trap carefully, fingers out of the bar's path.
- Place the traps out of reach of children and pets.
- Wash your hands after each handling.

ACTIVATE YOUR LIFETIME GUARANTEE

A Kilit trap breaks or stops working? We replace it. Fill in this form, it takes 1 minute.
